

CONCRETE NAILING SYSTEMS

ICCONS®

GT-6

GAS FASTENING SYSTEMS ARE NOW UTILISED BY MANY CONSTRUCTION PROFESSIONALS FOR A WIDE RANGE OF APPLICATIONS AS THEY ARE FAST AND EASY TO USE.

The ICCONS® GT-6 Gas Tool is the result of extensive R&D and global testing that now delivers the most versatile concrete gas tool fastening system in today's market. Design features covering functionality, ergonomics, durability and quality puts the versatile GT-6 in the Contractor's hand at a highly competitive price. The GT-6 is used extensively in the building services sector whether it's commercial, civil, industrial or domestic construction taking the place of more traditionally labour intensive applications such as drilled in anchoring or expensive PAT systems.

GT-6 Applications

- Direct Fixing to metal stud, floors, walls & ceilings
- Angle Clips for ceiling rod suspension systems
- Fire Rated Angle Clips for fire rated cabling
- Furring Channel Clips
- Plumbing, electrical and data services fixed with compatible saddle mounts and clipping systems
- Waterproofing and termite membranes
- Insulation Fasteners (GTI-140C only)

Features and benefits

- 30 pin Short Track for better accessibility and perfect for overhead use.
- Compact where access may be problematic
- 6 foot GT Extension Pole available
- Low decibel system often allows for use in occupied facilities or where noise is an issue like hospitals.

Durable carry case

1.7kg weight

Adjustable pin depth dial
